# Homeland Season 4 Subtitle Review

*国土安全第四季中文字幕对照评估*

9 November 2026

The revised Chinese subtitles are ready for a Season 4 viewing trial. The previous automatic translation often followed English words too literally and sometimes changed the meaning. The revised tracks use complete episode context, a shared terminology glossary, and a separate bilingual editing pass.

本次仅修订第四季，共 12 集、7,225 条字幕。重点改善军事和情报术语、人物关系、语气及自然表达；每条字幕的原始时间保持不变。建议先观看第一集，再决定是否推广至其他季。

## What the review established

| Check | Result |
|---|---|
| Season scope | S04E01–S04E12 only |
| Cue coverage | 7,225 of 7,225 cues retained |
| Timing | All original start and end times preserved |
| Editorial pass | 56 additional cue corrections after translation |
| Playback delivery | New generated Chinese artifact IDs; previous output retained |
| Model | Claude Sonnet 5.5 |

## Cost and recommendation

The measured API list-price equivalent was $6.18, including the 100-cue pilot, full translation, and bilingual review. This run used the existing Claude subscription; that figure is a usage estimate, not a separate invoice.

Use one episode per worker, a shared glossary, strict cue validation, and a separate editing pass. Three translation workers and two review workers were used. Parallel execution reduces elapsed time; it does not itself lower token cost. Anthropic’s Batch API advertises a 50 percent token-price discount for asynchronous work, but was not tested in this trial.

The examples on the next pages illustrate observed improvements, not a measured season-wide accuracy score. No full audiovisual review has been completed.

# Meaning and military terminology

### Dispatching aircraft 02:15

| English source<br>英文原文 | Previous Chinese<br>原中文字幕 | Reviewed Chinese<br>修订中文字幕 |
|---|---|---|
| We scrambled two<br>Fox 15-Echoes as soon as<br>the intelligence came back. | 我们炒了两个<br>Fox 15-Echoes 立即<br>情报回来了。 | 情报一传回来，<br>我们就紧急调了两架 F-15E。 |

“Scrambled” means launching aircraft urgently, not cooking them. The revised line identifies the F-15E aircraft from context.

此处 scrambled 指紧急起飞，不能按“炒”来翻译。

### Authorization to attack 03:31

| English source<br>英文原文 | Previous Chinese<br>原中文字幕 | Reviewed Chinese<br>修订中文字幕 |
|---|---|---|
| Authorization to engage.<br>On your command. | 授权参与。<br>按照你的命令。 | 已授权交战。<br>听你号令。 |

“Engage” refers to attacking the target. The old text loses that military meaning.

engage 在此表示攻击目标，修订后保留了作战指令的含义。

### An attack order 04:26

| English source<br>英文原文 | Previous Chinese<br>原中文字幕 | Reviewed Chinese<br>修订中文字幕 |
|---|---|---|
| Send them in. | 把它们寄进去。 | 让他们出击。 |

“Send them in” orders the aircraft into action. It does not mean sending something through the mail.

这是一道出击命令，而不是把东西“寄进去”。

# Natural dialogue and context

### Staying inside the embassy 01:05

| English source<br>英文原文 | Previous Chinese<br>原中文字幕 | Reviewed Chinese<br>修订中文字幕 |
|---|---|---|
| and I haven't been outside<br>the embassy in days. | 我还没有出去过<br>几天后的大使馆。 | 我好几天没出使馆了。 |

The old line reverses and garbles the time relationship. The revised line clearly says she has not left the embassy for days.

原译把时间关系译乱；修订后明确表达“好几天没出过使馆”。

### A reliable source 04:05

| English source<br>英文原文 | Previous Chinese<br>原中文字幕 | Reviewed Chinese<br>修订中文字幕 |
|---|---|---|
| Sandy's source<br>has always been rock solid. | 桑迪的来源<br>一直都很坚固。 | 桑迪的线人一直都很可靠。 |

“Rock solid” describes the reliability of an intelligence source, not physical hardness.

rock solid 指线人可靠，而不是身体或物体“坚固”。

### Radio communication 04:35

| English source<br>英文原文 | Previous Chinese<br>原中文字幕 | Reviewed Chinese<br>修订中文字幕 |
|---|---|---|
| Twelve from 11.<br>Currently in comms with JTAC.<br>Dial in. | 从 11 开始十二岁。<br>目前正在与 JTAC 沟通。<br>拨号。 | 12，这里是 11。<br>正与 JTAC 通联。接入吧。 |

The numbers are aircraft call signs and “dial in” means joining the radio communication. The old translation reads them as age and ordinary dialing.

数字是呼号；dial in 表示接入通话，不是年龄或普通拨号。

# Why the second editing pass matters

These comparisons show the initial Sonnet draft versus the final reviewed version. They are not comparisons with the old Apple translation. A fluent draft can still contain a meaning error.
以下对照为 Sonnet 初稿与复核稿，而非旧版机器翻译。表达流畅并不保证意思正确。

### Entry and exit restrictions  S04E03 cue 134

| English source<br>英文原文 | Sonnet draft<br>初稿 | After review<br>复核稿 |
|---|---|---|
| Yeah, nobody in or out<br>of the embassy. | 对，大使馆只许进不许出。 | 对，使馆谁都不能进出。 |

The draft permitted entry when the source forbids movement in both directions.
原文禁止进出；初稿错误地允许进入。

### Family relationships  S04E05 cue 253

| English source<br>英文原文 | Sonnet draft<br>初稿 | After review<br>复核稿 |
|---|---|---|
| Um, he was<br>my father's brother. | 他是我父亲的弟弟。 | 他是我父亲的兄弟。 |

The draft invented which brother was younger. The revision removes an unsupported relationship detail.
原文没有说明长幼；修订删除了凭空添加的信息。

### Workplace temperament  S04E02 cue 455

| English source<br>英文原文 | Sonnet draft<br>初稿 | After review<br>复核稿 |
|---|---|---|
| The whole agency's<br>full of prima donnas. | 整个中情局<br>全是自大的明星。 | 整个中情局<br>全是爱耍大牌的人。 |

“Prima donnas” is a figurative complaint about demanding colleagues, not a description of celebrity status.
此处是在批评同事难伺候，并不是说他们是明星。

# Episode coverage and viewing evaluation

| S04E04 | 665 | 7 | Unchanged |

| S04E06 | 475 | 4 | Unchanged |
| S04E07 | 661 | 4 | Unchanged |
| S04E08 | 634 | 1 | Unchanged |
| S04E09 | 637 | 1 | Unchanged |
| S04E10 | 591 | 3 | Unchanged |
| S04E11 | 538 | 4 | Unchanged |
| S04E12 | 712 | 3 | Unchanged |

The correction counts describe this editing pass, not every remaining error. Automated validation checks cue count, identifiers, nonempty text, and exact timing. It cannot establish acting intent or resolve every transcription ambiguity without watching the scene.

# What to watch first

Reopen S04E01 and choose the generated Chinese track. The opening operation, especially around 02:15–04:40, is a useful test of military terminology. Then watch a conversation-heavy scene and check whether the phrasing feels natural and can be read comfortably. Some dense or multi-speaker cues retain more than two lines; reading comfort remains part of the viewing trial.

请重新打开第四季第一集并选择生成的中文字幕。先看约 02:15 至 04:40 的行动场景，再看人物对话，重点评估术语、语气、阅读速度和字幕长度。原始时间轴未变，但仍需实际观看确认。

# Sources and audit files

Local evidence: extracted English cues, previous S04E01 Chinese WebVTT, revised cue files, editorial changes, and per-call usage logs in the Homeland-S04 review folder. One episode response contained two JSON versions; only its corrected final object was validated and sent to the editing pass.
